

Supo Pyramid

The Supo Pyramid is mainly installed on standing reinforcement. Installation is possible on reinforcement Ø 3-18 mm. To prevent twisting, the Supo Pyramid is mounted on a reinforcement crossing point. Thanks to the specially designed clamp shape, the Supo clamps optimally to the reinforcing steel. Fast installation is guaranteed. The pyramid shape ensures a punctiform contact surface and enables a very high-quality exposed concrete quality. The concrete can also be supplied in other colors on request.
